MULTIMIN®
Injection for Cattle

ALBANY REGION CATTLE ASSOCIATION INC. ALSO RECOGNISES THE SUPPORT OF OUR OTHER GENEROUS SPONSORS:

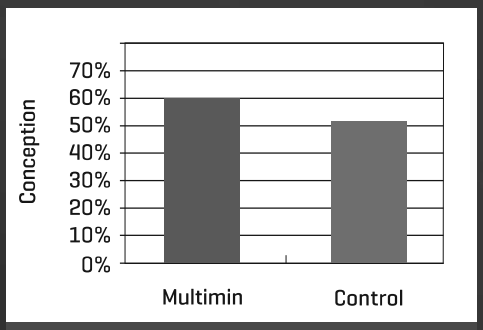
Allflex®
Identify the Difference

GET BREEDERS
PERFORMANCE READY

FOR INCREASED FERTILITY, CONCEPTION & PRODUCTIVITY

Joining is a high demand period for breeders, especially heifers and second calvers. Local and international research[1,2] has found that cattle treated with Multimin, at least a month before joining, showed improved conception rates and tighter calving intervals, compared to untreated animals.

- *4 in 1 trace mineral injection*
- *Rapid absorption and accurate dosing*
- *For strategic trace mineral top up*
- *World class scientific research*



Multimin provided cattle with a significant improvement in fertility[1]

1. Mundell et al (2012), PAS, 28:82-88. The Multimin formulation used in this study contained a different level of Zn compared to the current registered formulation
2. Virbac trial protocol no. 578-15

GROUP BREEDPLAN SUMMARY OF AVERAGE EBV'S FOR 2017 DROP CALVES

Group Breedplan tables have been provided from each Breed Society's 2018 Group Breedplan Summaries (as published on their websites) as an aid to bull buyers.

The average EBV's for the 2017 calf drop is an indication of the current genetic level of the breed based on the latest calf crop with a potentially complete performance profile.

You CANNOT make between breed assumptions from these figures. You can only compare Group Breedplan EBV's within a breed. There has been no attempt to standardise the EBV's across breeds as yet.

Please also note the degree of accuracy ("Acc.") percentage attributed to each animals individual figures when weighting each trait's influence on that animal.

For more information and an explanation of EBV's please visit the relevant breed websites.

LANDMARK

FEATURES

FLEXI SAVER

"I LIKE THAT I GET A 4% REWARD AND IT'S JUST RIGHT FOR US."

Landmark Operations Ltd
ACN 008 743 217
("**Landmark**")
10/737 Bourke Street
DOCKLANDS VIC 3008

Landmark is offering a highly rewarding and flexible offer. Earn a reward of 4% p.a. on funds lodged in your Landmark Flexi Saver account. And here's the flexible part - you can withdraw lodged amounts at any time.

4% P.A. REWARD RATE

PURPOSE

Customers can lodge proceeds/cash and receive a reward based on the value of funds lodged with Landmark.

TERM

No set term. The Lodged Amount can be withdrawn at any time and/or added to as required.

REWARD AMOUNT

4% Per Annum on the balance of the Lodgement Amount.

The Reward Amount will be applied to the Customer's Flexi Saver account and will be transferred to their trading account on request.

Any Reward Amount must be used to acquire Landmark Goods.

The Reward Amount is not interest and cannot be paid out separately to customers.

MINIMUM LODGEMENT AMOUNT

$10,000.

MAXIMUM LODGEMENT AMOUNT

$5 million.

ELIGIBLE CUSTOMERS

All Landmark customers.

ACCESSING FUNDS

Customers can withdraw the Lodged Amount at any time.

APPLICATION

Landmark Credit Application (if not already completed). Landmark Flexi Saver Agreement must be completed and signed.

Important Information: Please note that 'Flexi Saver' is not a financial product that is regulated under the Corporations Act 2001 (Cth) or a deposit account opened with Landmark Operations Limited (Landmark). The purpose of the Flexi Saver product is to provide customers with store credit on goods and services at participating Landmark stores. In offering this product, Landmark, its employees, agents or contractors are not providing any financial, legal or tax advice. Landmark recommends that interested parties obtain their own independent tax and/or financial advice on the suitability of this product based on their specific circumstances. Contact your local branch manager or Rural Finance Manager for the full Terms and Conditions.Landmark collects, uses, discloses and handles personal information in accordance with the Privacy Act 1988 (Cth) and its privacy principles (as amended from time to time). REMARKS: Webb Tank was purchased for Australian record price for black Simmentals in 2016. His sons here today, Lot 1,2 & 3 are a chip of the old block, docile temperaments & the first to be offered for sale in Australia. Class, style and balance with a slick coat, these sons have excellent temperaments & present an amazing opportunity to all farmers within the beef industry. Semen tested, BVDV tested, 7in1 vaccinated, JBAS 8.

The longest lasting protection going around.

For long term protection against *Haemonchus*, *Ostertagia* and *Trichostrongylus* choose Cydectin® Long Acting (LA) Injection for Cattle. Just one small dose of Cydectin LA is enough to give long term protection against *Haemonchus* for 120 days, *Ostertagia* for 112 days and *Trichostrongylus* for 72 days.

That puts it in a world of protection all on its own. Insist on Cydectin Long Acting Injection and really protect your most important assets.

CYDECTIN® LONG ACTING
INJECTION FOR CATTLE

No known impact on dung beetles^

Cydectin® is a registered trademark of Virbac (Australia) Pty Limited. © 2010 Virbac (Australia) Pty Limited.
All rights reserved. ^While every species has not been tested, four main species have. See label for full details
