

# ANNUAL ON- PROPERTY SALE

THURSDAY 27TH AUGUST 2020

VENDOR: TIM GRAETZ  
0428 733 065

LARYN GOGEL: 0436 020 245

TREVOR WISEMAN: 0427 237 369

# WELCOME

Welcome to our 2020 Ram Sale and thank you for your continued support. We wish you all the very best with your purchases and for the season. *The Graetz Family*

---

## KEY

**MIC** is the average fibre diameter expressed in microns.

**SD** is the standard deviation of fibre diameter. It is a measure of the fibre diameter variation within the sample. The smaller the SD value, the more evenly sized the fibres are.

**CV** is the co-efficient of variation of fibre diameter. As a guideline, in mature, good nutritionally fed wools the CV values of good test results should be less than 20% whilst tests greater than 23% are undesirable.

**CF** is a processing guide and is expressed as a percentage. The comfort factor indicates the fibres less than 30 microns. Fibres over 30 microns are associated with the itch factor.

**BWT** is the body weight of the sheep, measured in kg on 19/08/2020.

**EMD** is the Eye Muscle Depth measured in mm on 19/08/2020.

**FAT** is the Fat Depth measured in mm on 19/08/2020

---

## PLEASE NOTE

Lot no 1 to 14 are shed prepared and were shorn one month prior to paddock rams
