

## BOYANUP MATED FEMALE SALE RESULTS

07/01/2021

Nutrien South West conducted their Boyanup Annual Mated Female Sale today, 7<sup>th</sup> of January 2021 with a very large number of buyers in attendance.

451 quality locally bred Angus, Murray Grey and Red Angus mated females were sold at this fixture, which is held on an annual basis, with most observers commenting the quality yarding was the most even line up ever presented.

Prices reflected this sentiment with a top price of \$4,100 being achieved twice from 2 vendors: GW & J Oliver for 6 mated Angus heifers, and Treeton Lake for 8 mated Angus heifers. ***This price is a new Australian record per head for commercial Angus mated heifers.***

Angus Mated Heifers:

326 sold to a top of \$4,100 to average \$3,038 per head

Murray Grey Mated Heifers:

98 sold to a top of \$3,100 to average \$2,461 per head

Red Angus Mated Heifers:

27 sold to a top of \$2,950 to average \$2,790 per head

**Total Sale Result:**

451 head sold to a top of \$4,100 to average \$2,900 per head

Again, outstanding support from the Nutrien Livestock WA Network.
