Comments: **Homo Polled.** Quick Gun is a moderate, powerful, easy calving Long Distance son that we were intending to use in the Stud herd. He has a good scrotal and scanned exceptionally well.

His dam, Kristina E19E is a full sister to Kenmere Chock E12E that proved himself as one of the greats with over 170 progeny.

**Semen retained for in herd use.** EBV Percentiles: 1% Calving Ease Direct, Rib & Rump Fat, 5% Gestation, IMF, 10% Birth Weight.
