E-MAIL: londavra@netspace.net.au

Dear Friends and Breeders,

I would like to welcome you to the 27<sup>th</sup> Annual Londavra Bull Sale Catalogue. It is a pleasure to invite previous buyers and prospective buyers to view the bulls in the 2021 Sale. Due to illness we had to postpone until this later date.

What a turnaround!! From possibly the worst three seasons we have ever had to the best season ever!! Let's hope there is more on the way. Just a fortnight before writing this letter we also experienced our most damaging flood. Not the most rainfall we have ever had, but a lot of rain in a short period certainly caused havoc on fences that have never been damaged before.

For the first six months of this year's sale bulls lives, we were still in drought, but since then they have rolled along without even a shortage of feed last winter. With the spring, summer and autumn as good as you could get. Best ever cuts per hectare of hay and silage.

With the five bulls we have used for natural mating, namely R. Empire, R. Hamster, R. Distinction R. Stewie and L. Earnon we have used four selected AI sires on a fixed time AI programme

. Millah Murrah Marlon Brando M304, Clunie Range Legend L348 over mature cows and Baldridge Command 036 and Landfall Keystone L134 over heifers.

Marlon Brando comes out of the heart of the Millah Murrah herd. He is by the \$80,000 MM Klooney K42. Out of MM Flower G41, the same dam that bred MM Kingdom K35 who sold for \$150,000, an Australian record at the time. These are the first offering of Marlon Brando bulls in Tasmania. A feature of these bulls is their high EMA figures.

Clunie Range Legend L348 is a high growth Matauri Reality son with positive fats.

Keystone and Command are both low birthweight, high growth bulls which we used over our first calving heifers. Please note that the AI calves are two weeks older than the natural mated calves. The naturally mated calves are all September/October calves.

We believe the list of sires used will supply bulls to fit all beef enterprises. Londavra's aim has always been to produce bulls that grow out remembering that **weight pays**.

Londavra's first draft of steers sold to Tas. Feedlot weighed 518 kg at 12-14 months. These were Sept/Oct calves and were sold at the end of October. Again emphasising that **size and weight pays**.

Please note that we have changed from selling under the Helmsman system to Auction – Also being interfaced with Auctions Plus.

Regards

David Young

Londavra 2 ½ and 3 ½ year old Commercial Heifers with calves at foot

## THE OFFERING

### BY AI SIRES:

5 by Millah Murrah Marlon Brando M304  
3 by Clunie Range Legend L348  
3 by Landfall Keystone K132  
3 by Baldridge Command C036

### BY OUR SIRES:

5 by Londavra Earnon M18  
3 by Raff Hamster H442  
4 by Raff Empire J24  
3 by Raff Distinction K295  
5 by Raff Stewie L51

## SALE NOTES

- 1 The sale bulls are being penned for sale in selected groups and sold by Auction, and interfaced with Auctions Plus. They have been catalogued in pen order.
- 2 Videos of the Bulls can be viewed on Auction Plus. Bulls were videoed on 30<sup>th</sup> March.
- 3 The bulls will be penned at 9.30 am for inspection on sale day. They can be viewed at other times by arrangement with vendor.
- 4 Weights and scrotum measurements will be available on a supplementary sheet Sale Day.
- 5 REBATE – 3% available to outside agents under the usual sale conditions
- 6 FREIGHT – Londavra offers free sea freight to King and Flinders Islands and Melbourne on bulls sold at auction. If David cannot deliver the bulls we will assist Nutrien to deliver the bulls free of charge. We recommend you insure your purchases.
- 7 GUARANTEE: Londavra guarantee all bulls fertile. Any claim against fertility must be made in writing accompanied by a Veterinary Certificate and forwarded to the vendor no later than the 28<sup>th</sup> February 2022. Any bull proven to be not fertile will be replaced if available, or purchase price (less salvage value) credited for use at the following sale.
- 8 Complimentary food will be available and please join us for refreshments after the sale.
- 9 The sale is conducted under Nutrien Ag Solutions usual Auction Sale Terms and Conditions.

## HEALTH NOTES

All sale Bulls were vaccinated with Pestiguard and 5-in-1 on 5-6-2020 and 24-7-2020

All sale Bulls were drenched with Cydectin Pour-on and B12 on 10-2-2021.

ALL BULLS ARE PEDIGREE OR TESTED FREE FOR AM, NH, CA AND DD. J-BAS 6

*The sale bulls were professionally muscle and fat scanned by  
Bovine Scanning Services, Tamworth  
Technician - Lonnie Stone (acc No. 1041) on 12<sup>th</sup> January 2021*

## RAW DATA

Raw data is in the catalogue again this year – we believe this gives a truer indication of the animal's performance and his figures have not been manipulated by pedigree. Often Breedplan figures are not a true indication of their performance. We find the new Indexes very misleading – highlighting low birth, high growth and positive fats, as most experienced cattlemen know low birth and high growth are an anomaly in itself. A large EMA and RBY% has a huge influence on your dressing percentage.
