Welcome to Lucrana Simmentals 10th Annual Sale

I would like to extend a warm welcome to all to our 10th Anniversary Sale. The timing of this milestone event for the stud could not have been better as it coincides with one of the most exciting times ever to be involved in the beef industry as a producer. The stability and demand in cattle markets are at levels we could not have imagined just a couple of years ago.

This year's sale brings with it a few changes. Stringent culling of many of the older and inferior females during the drought, plus having a large percentage of heifer calves born in 2019, left us with less bulls to select the sale draft from. However conscious that the herd rebuild is in full swing and wanting to maintain sale numbers without compromising quality, led to the decision to invite an outside vendor, Brenair Park from Drysdale in Victoria, to participate in the sale. The Brenair Park bulls have been here at Lucrana since late April. Their program is widely recognised for investing heavily in some of the best Fleckvieh Simmental genetics from overseas for many years. And they provide existing clients with some alternative bloodlines.

We have always had strong enquiry for younger bulls, so this year was the perfect opportunity to catalogue some yearling bulls for sale. We are very happy with this line of young bulls and are confident you will also appreciate their depth of breeding.

There has never been a better time to invest in quality genetics from a stud with a proven track record.

I look forward to catching up on sale day and as always welcome enquiries and pre-sale inspections. And a reminder for those that may not be able to make it to the sale on the day that the opportunity exists to bid online through Elite Livestock Auctions.
