# Vision

**'To sell young Hereford bulls with structural soundness and above average genetic merit.'**

The concept for a Performance Based Bull Sale was the brainchild of five like minded Gippsland Hereford Breeders, all long time supporters of BREEDPLAN and adopters of the various technologies and science, as it has become available to the stud cattle industry, to support them in their breeding and management decisions and pursuing their breeding objectives.

They believed it was important to have a point of difference. They agreed on the concept of having a Performance Based Online Bull Sale selling young bulls who met strict selection criteria including being Herdbook Registered, structurally sound, fertile, DNA tested free of all know adverse genetic conditions and Pestivirus, sire verified and above average for various BREEDPLAN EBV's, Indexes and Traits which they consider are the profit drivers for the beef industry.
