Welcome to our 17th Annual On-Property Ram Sale

Prime lamb sires have been bred at Fairbank since the property was purchased by our family in 1903 and continue to be the major enterprise on the property. We aim to breed structurally superior rams that contain balanced ASBVs with Lambplan being utilised since its inception.

Due to the unpredictability of covid we have again decided to interface the sale with Auctions plus. Attendance is still encouraged on the day however anyone that cannot attend on the day can arrange a viewing prior and still participate in the sale.

This years sale is our largest offering of terminal genetics and will again feature not only our Poll Dorset, White Suffolk and Southdown rams but also our terminal composites (Southdown x Dorset and Charollais x Southdown/Dorset).

- All rams are vaccinated with 6 in 1. Ensure annual boosters are administered
- Drenched with Startect - October 2021
- Fairbank is ovine brucellosis accredited free
- OJD MN1V Status and are a 2nd generation approved vaccinated flock being vaccinated against OJD since 2003
- Southdown Stud breeders note that Lots 1-24 have been tested for Gaucher disease and are non carriers

All ram LOTS are offered as flock rams, however should a transfer be required a minimum price of \$2500 will apply and nominated at the fall of the hammer.

We would be happy to personally deliver within mainland Tasmania any rams not taken on the day. We thank you all for your interest in our sheep.

Chris, Megan, Frank and Cynthia Badcock

Lambplan has been used since its inception at Fairbank and whilst some selection criteria is placed on Lambplan ASBV's it is well known that we will not compromise structure or breed type to gain additional estimated breeding values. Lambplan is a guide to assist you in making decisions based on the genetic merit of each animal but should not replace visual selection. Balanced ASBV's are important for consistency of progeny but most importantly rams should be both fertile and structurally correct.

Bwt – Birth Weight. Rams with lower ASBV's for birth weight (BWT) produce lambs with lower birth weight. Both low (lamb survival) and high (lambing difficulties) should be avoided.

Wwt – Weaning Weight. Rams with a more positive ASBV for weaning weight (WWT) will, on average, produce lambs that grow quicker to weaning.

Pwwt – Post weaning weight. Rams with more positive ASBVs for post weaning weight (PWT) produce lambs that grow quicker and reach target weights in a shorter time.

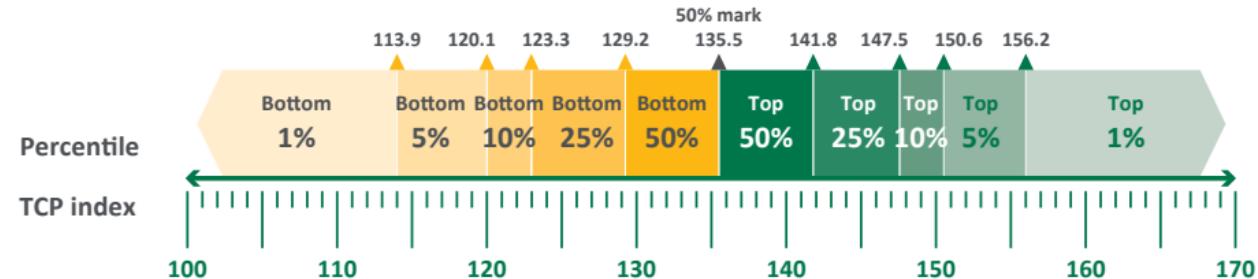

Pemd – Post eye muscle depth. Rams with a more positive ASBV for post weaning eye muscle depth produce lambs that have more muscle, independent of weight, and a higher lean meat yield.

Pfat – Post fat. Rams with a more negative ASBV for post weaning fat (PFAT) will produce lambs that are leaner at the same weight.

TCP The TCP Index has been created to assist producers to achieve both gains in their major production traits, such as post-weaning weight and muscling, as well as ensuring consumer satisfaction from lamb is maintained through focusing on key eating quality traits such as shear force (tenderness) and intramuscular fat (marbling).

The TCP Index, unlike Carcase Plus, is on a scale that is aligned with other Sheep Genetics' indexes and is represented in economic terms with a unity index reflecting an additional dollar per ewe joined per year. To assist in comparing rams, Sheep Genetics recommends using a percentile band table as reference. The figure below, which is based on the percentile band table, highlights the TCP Index value for significant percentiles for the 2019 drop animals.

TCP has been developed by using extensive research using mainly Poll Dorset and White Suffolk genetics. Therefore we believe this new index is not the most appropriate index for the Southdown and should not be used to compare between breeds. We are actively working with Sheep Genetics on a solution to find the most appropriate Southdown index.

SOUTHDOWN EWES

SOUTHDOWN RAMS

Southdowns have been a successful enterprise at Fairbank since 1922 spanning four generations, with both ram and ewe sales to all states during this time. This year's offering consists of progeny from our elite home bred sires that have been retained as they were the top sires of each drop.

This years Southdown offering include progeny of:

- **Fairbank 17/831** - Unshown, but retained for his high muscle ASBV and unique all Australian pedigree. He is a moderate, well muscled ram. Sire of last years Australian auction record \$11,000 ram. 5 rams and 2 ewes on offer.
- **Fairbank 17/821** - 2nd Geelong. An extremely long, open faced and good shouldered ram by an outcross sire, Clear Hills 13/341. 13 rams and 2 ewes on offer.
- **Fairbank 17/881** - 1st Bendigo, 2nd Geelong. A very correct ram with exceptional top line and tail setting. By Fairbank 15/629 (Reserve Ch. Bendigo, sold \$5,000 2016 on-property sale). 11 rams and 5 ewes on offer.
- **Yentrac 18/821** - Champion Bendigo 2019. Well-muscled, balanced and correct ram. 13 rams and 1 ewe on offer.
- **Nedelle Downs 17/37** - Sound ram used as a Lambplan link sire. Progeny display good growth. 10 rams and 2 ewes on offer.

- **Fernhill 15/16** - Supreme sheep Geelong 2019. Very correct and well muscled ram. Sire of our keeper ram. 10 rams on offer.
- **Fairbank 19/797** - Used as ram lamb to pick up AI ewes. He was an outstanding lamb out of a very good ewe. 3 rams 1 ewe on offer.
- **Fairbank 18/827** - Keeper ram by AI sire Kirkdale 206. 3 rams on offer.
- **Fairbank 18/881** - Keeper ram who also sired this years Fairbank keeper ram. 2 rams 1 ewe on offer.

TERMINAL COMPOSITE - SOUTHDOWN X POLL DORSET

The breed originally started out in 2014 as an attempt to tighten the gestation length on our Poll Dorsets by picking up with a Southdown after a 4 week joining. We have since then refined this to specifically select ewes to go into this program. Both Poll Dorset and Southdown ewes are used with sires matched accordingly. Rams have been developed to have black feet and open faces and that extra bit of vigour and growth.

TERMINAL COMPOSITE - CHAROLLAIS X POLL DORSET/SOUTHDOWN

The Charollais cross project came about due to having some outstanding ewes coming out of our Southdown x Dorset terminal program. We identified the Charollais had exceptional hind quarters and natural low birth weights. We wanted to back this up with some Lambplan ASBV's, but also add some body length to the Charollais and improve the face colouring. These rams are ideal for specific ewe lamb joinings. Majority of our 2021 offering are out of ewe lambs and not born until Sep/Oct.

WHITE SUFFOLK

Our White Suffolks commenced in 1996 using Fairbank Poll Dorset ewes and the proven South Australian White Suffolk genetics. Since then carefully selected mainland and Tasmanian sires have been utilised to produce structurally correct and well muscled rams suited to a wide range of conditions and locations. Our White Suffolk's are very consistent and express great breed type, structural correctness and muscling

This years White Suffolk offering include progeny of:

- **Ella Matta 17/300** - Used by AI for strong Lambplan data and proven performance in other studs. Progeny display good growth. 17 rams on offer.
- **Somerset 16/67** - Used as a Lambplan link sire with over 1,000 progeny across Australia. Trait leader for TCP 165.75, low Bwt and positive fat. 12 rams on offer.
- **Fairbank 18/665** - Very correct low Bwt ram. 8 rams on offer.
- **Somerset 17/147** - Another high performing link sire with trait leader for TCP 163.31 and Pemd 4.33. 6 rams on offer.
- **Fairbank 19/506** - Used as a ram lamb to back up AI program and then retained by Fairbank. Semen sold to South Australia. Trait leader for eating quality. 5 rams on offer.
- **Fairbank 18/675** - Moderate sized ram with good Pemd only used as a late pick up. 2 rams on offer.

POLL DORSET

Our Poll Dorsets were established in 1969 by selecting the top ewes from leading Tasmanian studs. Since then we have carefully selected the best available genetics by either natural mating or A.I as well as our own top rams to produce commercially relevant industry sires.

- **Hillcroft Farms 11/548** - Number 1 ram in Australia for TCP and # 2 for eating quality. Huge impact sire and sire of Fairbank keeper ram. 13 rams on offer.
- **Gooramma 16/308** - Outcross ram used for his excellent breed type and muscling. Sire of Fairbank keeper ram.
12 rams on offer.
- **Bruan 17/146** - Grand son of HF 548 above. Excellent lambplan ASBV's 11 rams on offer.
- **Lambpro 14/859** - Proven sire at Fairbank and also at other studs. Sons have now sold to \$17,000. He continues to have a strong influence. Limited joinings due to other sons retained and high number of daughters in our flock but still has 11 rams on offer.
- **Fairbank 18/33** - Champion Launceston. Very correct ram with great breed type. 7 rams on offer.
- **Fairbank 18/394** - Son of LP 140859. Moderate well fleshed ram. 7 rams on offer.
- **Fairbank 17/364** - Son of LP 140859. Long structurally correct with trait leader with Pwwt. 5 rams on offer.

- Fairbank 16/433** - LP 140859 son only used as a pick up. 1 ram on offer.
- Valma 17/289** - Purchased \$14,200 with Sunnybanks and Capelands. Only used as a pick up. 1 ram on offer.

Fairbank 20/983

Keeper ram by Fernhill 15/16
(Supreme Champion, Geelong)

Very balanced and correct ram
with excellent muscling.

Bwt	Wwt	Pwwt	Pfat	Pemd	TCP
0.21	8.12	13.31	-0.50	0.21	115.56

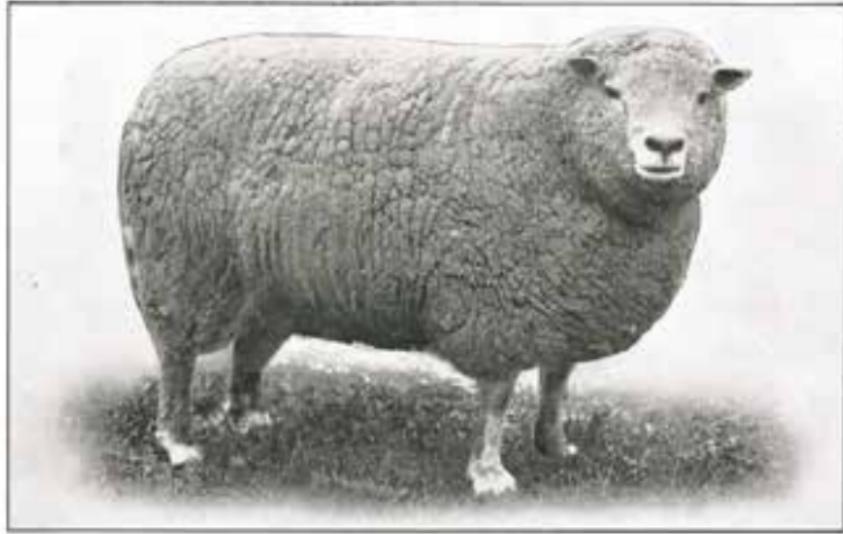

Fairbank 20/1153 Tw

Keeper ram by Fairbank 18/881 Tw.

One of the cleanest rams we have bred.
Virtually wool free on face and legs. Backed with a
massive hind quarter on a moderate frame size.
