For over 180 years, our business has been integral to the Australian agricultural industry.

Nutrien Ag Solutions is an integral part of the Australian agricultural industry. Our generations of experience have made us experts in a range of different farming areas, including precision farming services, marketing livestock and wool, agricultural services, water, finance, insurance, merchandise and real estate.

We are the largest distributor of both farming supplies and fertiliser in Australia and provide unparalleled access to solutions. Our team of more than 4,000 farming experts are committed to upholding the mission and values that make us the ag retailer of the future.

WE SPECIALISE IN

MEMO OF SIRES

WP60	Wallaloo Park 60
190249	Emillio - Sold \$20,000 East Mundalla background
190276	Snowy - Sold \$9,000 East Mundalla background
93S	Sires By Wallaloo Park 93
60F	Top Sons of WP60
180236	Son of Diesel 5.136
180192	Coddington Poll Grandson Sold \$10,000
190218	Son Of East Mundalla
B	Back up to AI
Syn	Syndicate of Young Ram Lambs

LOTS 1-40

Shedded rams blade shorn
for 1st March inspection

LOTS 41-80

Paddock rams, machine shorn 2/3/22

Fleece weights taken with 4 months wool

Fat and muscle tests taken on 20/7/22

All Rams have been Genomic Tested

ASBV's available on Sheep Genetics

zoetis

EACH YEAR
OJD KILLS
6.2%

OF ADULT SHEEP
FROM INFECTED
FLOCKS*

OJD DISEASE IS STILL
THREATENING PROPERTIES
ACROSS AUSTRALIA

VACCINATION WITH GUDAIR HAS BEEN HIGHLY
SUCCESSFUL IN PROTECTING MANY FLOCKS.

GIVE ONE DOSE AT 4-16 WEEKS AND
PROTECT LAMBS FOR LIFE

The benefits of a Gudair Vaccination Program are:

- Decreases the amount of bacteria shed in a flock by up to 90%
- Reduces mortalities
- Delays shedding for 12 months

Gudair®: Best Practice Vaccination Technique

In accordance with the registered product label, the vaccine should only be administered under the skin (subcutaneously). However, a recent study conducted by Zoetis has revealed that even experienced sheep producers may be unintentionally administering Gudair into muscle, or hitting other structures such as bone, on a regular basis. This increases the risk of carcass trimming, abscesses - and subsequent risk of fly strike - and, in rare cases, neurological dysfunction ("OJD" staggers).

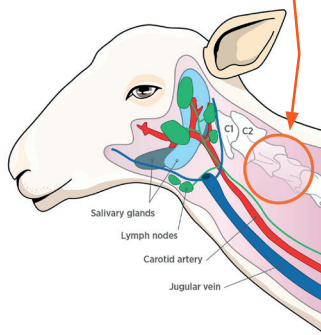

The orange circle on the sheep anatomy diagram indicates the correct site to vaccinate, under the skin, on the side of the neck, avoiding critical structures near the base of the ear, and the C1/C2 joints of the spine.

Class of Stock	Needle Gauge	Needle Length	Needle angle to skin
Lambs	18G	1/4 inch	45°
Adults off-shears/ short wool/low body condition score	18G	1/4 inch	45°
Adults with wool growth	18G	1/4 inch	90°

Human safety - use the Gudair sekurus safety vaccinator

All oil vaccines are known to be reactive. Take care to avoid accidental self-injection. In the case of human exposure (self-injection/scratch) seek medical attention immediately. Take the vaccine box and label for the healthcare professional to read.

For more information call the
Zoetis Technical Helpline on 1800 814 883
or contact your local Central Victoria
