VIEW ONLINE VIDEO  
[www.injemira.com.au](http://www.injemira.com.au)

**TUESDAY 23<sup>RD</sup> AUGUST 2022**

**PREFACE:** This is the 2nd Injemira Angus Production Sale, and will be conducted at "Kiloran", Book Book via Wagga Wagga NSW. 18kms north of Hume Highway on the Wagga Tumbarumba Rd. Inspection 9.30am. Sale 12.30pm.

**INSPECTION:** We encourage buyers to inspect the cattle prior to the sale. This gives us an opportunity to assist in selection of the best genetics for your herd, and to show you the strength of our sires and breeding herd. Contact Marc Greening at home on (02) 6928 1188, Mobile: 0411 043 039.

**WEIGHTS:** Will be available on sale day, or prior to the sale by ringing / emailing the Injemira office.

**PAYMENT:** Special arrangements can be made by contacting Injemira.

**ACCOMMODATION:** There are excellent Motels in Wagga Wagga, and we or the selling agents can make the necessary arrangements.

**TRANSPORT:** We can arrange your transport to and from Injemira, as there is an excellent air service to Albury and Wagga Wagga.

**BREEDPLAN:** We utilise and recommend Breedplan, which is a pedigree assessment of an animal's genetic merit. This is expressed as estimated breeding values (EBV's) and is measured in kilograms of liveweight.

ANGUS TRANS TASMAN CATTLE EVALUATION FOR 2020 DROP CALVES								
CE DIR	CE DTRS	GEST	BWT	200	400	600	MCW	MILK
+2.2	+2.6	-4.7	+4.1	+49	+89	+116	+100	+17
SS	DTC	CWT	EMA	RIB	P8	RBY%	IMF%	DOC
+2.1	-4.6	+66	+6.2	0.0	-0.4	+0.5	+2.1	+7

**BULL SELECTION:** TACE provides the information required to make a considered selection for the sire suitable for your herd improvement, be it for growth, calving ease, milk, eye muscle area etc.

**HEIFER BULLS:** Sire lot numbers marked with an **(H)** are those sires we would suggest suitable for joining to heifers.

**THE BREEDPLAN SELECTION INDEXES:**

This Index gives you a single EBV that reflect the value of an animal, to your breeding objective, in dollar terms. Each lot is expressed in the following format.

\$A	\$194
\$A-L	\$335

2020 BORN  
 ANGUS BREED AVERAGES

**AFTER SALES SERVICE:** We pride ourselves in the manner in which we look after our clients. Forming strong alliances can only enhance the product. Don't hesitate to contact us.

**BULL SOUNDNESS:** All the sale bulls have been examined by our vet, in accordance with industry best practice.

**CORONA VIRUS:** All rules and regulations at the date of 23rd of August 2022 as prescribed by the NSW State Government will be adhered to. We ask upon arrival attendees familiarise themselves with the protocols for sale day.

**SPECIAL ARRANGEMENTS FOR AUTUMN JOINERS**

Injemira can retain those bulls purchased by Autumn joining operators until the bulls are required, free of charge. Payment would be 50% at sale time, with the balance payable on delivery. Contact Injemira to make arrangements.

# Welcome to Injemira in 2022

Injemira Beef Genetics is a family run and owned Poll Hereford & Angus seedstock business with genetics utilised to produce commercially orientated bulls for the Australian beef industry. In 2022 we will offer 50 Angus sires in our Annual Production Sale and 40 commercial heifers with calves at foot.

Our program is not your traditional stud business. Our breeding decisions are dictated by commercial reality and that alone. Many stud operations can claim this but at Injemira we do it ourselves. In 2022 Injemira will turn off from grass ~2000 cattle in the form of Grass Fed Steers and Heifers and Live Export Breeding Females along with PTIC females for a July calving. With pedigrees analysed for “real world” performance and this analyses directs our breeding decisions for the upcoming stud breeding season.

This vertical integration with the commercial performance driving our stud herd not only enables us to offer bulls that we know will perform but it also allows Injemira to give relevant feedback to repeat clientele to give them the most desirable genetic package. “Seedstock production is not selling a bull, it’s selling a complete program”.

The Injemira stud herd consists of 350 registered Poll Hereford and 150 Angus stud breeders with a program of not culling any heifers. Natural selection does this for us. All females have to calve naturally before 2 years of age and rebreed to calve again at the age of 3. If any female does not do this she is culled. This stringent commercially orientated program is why Injemira can offer to the industry ~70 Angus bulls annually from only 180 stud females. The Injemira drop is very consistent with each bull being highly predictable genetically. We see in our industry far too often seedstock herds with large numbers of registered females selling relatively small numbers of bulls, you only get to see the top of the drop. At Injemira you will basically see the entire drop giving you the confidence that your “genetic package” will breed to a consistent level.

## 2022 - The year so far

**Stud-** It is extremely exciting and rewarding to offer to the industry our Angus Bull drop through our 2nd on property auction. We have been breeding Angus Bulls for 9 years and have developed a breeding program very similar to that of our highly successful Poll Hereford program. We made the move to incorporate Angus into our program as we saw a gap in the market for the program we have and the type of Angus bulls we want to breed with very strong emphasis on structure and carcase yield. Our Annual Poll Hereford Bull production sale in February was extremely strong with Injemira setting a new breed record for average price and overall sale gross for the breed. We are very excited that the Angus bulls on offer are very similar in type to that of our Poll Hereford bulls, only a different colour. We have seen numerous new industry leading sire lines come through in our 2022 Angus sale bulls with the New Grounds and Porsche sons being a highlight.

**Commercial-** In 2021 we didn’t get bulk rain but when it did rain it was at the right time and in 2022 the rain has generally been spot on. With this rain we produced quality feed through the growing season. The Injemira blood commercial steers/heifers both Angus & Poll Hereford performed well with the early maturity patterns enabling bodies to hit the premium ‘Grass’ branded programs of Southern Australia. At Injemira our premium market for steers and heifers ‘Coles Graze’ was a great marketing outlet taking Grass fed Injemira blood whiteface cattle for what is the industries premium market. The steers that got too heavy for the Coles market went to JBS’s Great Southern brand which was an exceptional outlet for the heavier bodies. Again the British bred steer/heifer from our genetic base is proving to be perfectly suited to the grass fed industry which is currently the jewel of the Australian domestic & export industry.

**Industry-** Injemira’s MSA Index for over 1600 bodies was a fantastic 62.8 putting Injemira in the top 10% of the entire industry. Gone are the days of producing huge growth cattle that don’t finish until 3 y/o on grass, we need early maturity patterns with the ability to finish off grass as a milk tooth animal. We need to concentrate on areas that we will be paid on in the future and that is my job as a seedstock producer to provide this, I cannot stress highly enough that this is CARCASE YIELD & CARCASE QUALITY and that is what gets you an MSA Index in the top 10% of the industry.

# AN ANGUS MOVE FOR INJEMIRA

Breed diversification has cemented Injemira Beef Genetics' place at the forefront of the Australian seedstock industry. For decades, the business has enjoyed tremendous success through their Poll Hereford seedstock and commercial beef lines, but a strong client demand has seen them build an Angus seedstock herd over the last nine years. Not only has it continued the tradition for Injemira quality and performance, but clients are delighted.

Marc Greening is the principal of Injemira and says while they have diversified in terms of cattle breeds, building a breeding program, not just genetics, is what they do best.

"We are not your traditional stud operators," Mr Greening said.

"Seedstock production is not just selling a bull, it is selling a whole program. Our breeding decisions are dictated by real world commercial reality alone."

The Injemira Poll Hereford business is arguably Australia's best performing Poll Hereford herd with breed records set for the highest average bull sale prices, record top price and highest grossing bull sale. All these achievements, combined with a grass finishing commercial business, which turns off up to 3000 steers and heifers a year, culminated in Injemira being named the Coles Farmer of the Year earlier this year.

"It was terrific recognition that our genetics are resulting in consistently high-quality beef," Mr Greening said.

Mr Greening describes the Injemira business as genetically vertically integrated, with weaner cattle purchased from bull buying clients and finished on grass for Australia's lucrative grass-fed brands.

"Real world data is then captured on these cattle, which in turn is given back to clients to improve their herds' genetic capacity. In turn it's used to further strengthen our stud herds of both Angus and Poll Hereford," he said.

The Meat Standards Australia (MSA) index values for slaughter commercial cattle is a great tool for the business to benchmark their genetics and management program. Through careful selection and data monitoring, Injemira's MSA index values have risen consistently over the last five years to be within the top 10 percent of the entire industry. In 2021, Injemira received feedback on both steers and heifers with marble scores up to nine for each main breed. This ensures the operation is meeting brand requirements for superior meat-eating quality consistently.

Mr Greening says the Angus side of the business was started nine years ago due to demand from existing bull clients that had progressive 'Black Baldy' breeding programs.

"In the space of a few days I had two clients call and say the same thing; that their Poll Hereford bulls they purchase have longevity, but the Angus bulls don't. They then asked for my assistance to help them buy their Angus bulls," he said.

"It was then and there I decided to breed Angus bulls for these clients myself."

Since then, Mr Greening's Angus herd has expanded to 150 stud females, and culminated in their second Angus Production Sale on August 23, 2022. Fifty bulls and 40 EU accredited commercial heifers with calves at foot will go under the hammer.

Long term South Australian Injemira Angus and Poll Hereford client Christine Comley from Mount Gambier and Penola cites her continuing success through the bloodlines she's purchased.

"The Injemira Angus bulls have great constitution and they just last, which brings our dollar per calf bred by each bull down considerably," she said.

"The bulls have superior carcass shape and the maturity pattern our herd requires. A benefit also is the fact that Marc buys runs of both our Angus steer and heifer weaners for his grass program".

The Injemira Grass Program is a 'buy back' part of the business, where Mr Greening purchases weaner progeny from clients.

"It's not only a lucrative option for our clients, as they get a ready-made market and extra competition for their calves, but the information received back from the performance data of the steers and heifers purchased, really drives our stud breeding direction to a real-world money-making package," Mr Greening said.

"The Angus bulls we produce at Injemira are very similar in constitution, carcass, temperament and market suitability to our Poll Herefords. The only difference is their colour".

Injemira's 2022 bull offering is a consistent and impressive line of 50. They have strong EBV data, with more than half the catalogue suitable for heifer joining programs. On offer will also be 40 EU accredited Angus heifers with calves at foot. Mr Greening describes them as 'exceptional commercial heifers that have absolute bomb proof temperaments.'

While the business has relied on paddock sales for their Angus bulls to date, Mr Greening says they've moved into a formal auction process to be fair and to avoid clients missing out. The sale will be held at "Kiloran", Book Book via Wagga Wagga, New South Wales on Tuesday, August 23, 2022 and will also be interfaced on Auctionsplus. Catalogues and video presentations will be available in late July.

By Jayne Cuddihy - ACM

# COMMERCIAL INJEMIRA HEIFERS & CALVES

## - FOR SALE -

**Selling 40 Commercial Heifers & Calves - 23rd AUG 2022 @ 12.30**

- Rising 2 Years
- Calves at Foot
- Outstanding Units
- Great Temperament
- EU Accredited
- PCAS Eligible
- JBAS 6
- Fully Drench & Vaccinated
- AuctionsPlus Bidding Available

At Injemira we purchase annually weaner heifers from bull buying clients. These heifers are then drafted on constitution and market suitability traits. With the best sold annually for breeding.

The Heifers available in 2022 are a tremendous line of heifers that will suit any progressive breeding operation.

## How to Register and Bid on AuctionsPlus

1

Go to [www.auctionsplus.com.au](http://www.auctionsplus.com.au) to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: [info@auctionsplus.com.au](mailto:info@auctionsplus.com.au)

## QUALITY ASSURANCE AT INJEMIRA

Rest assured every step has been taken to offer the commercial buyer a disease free sire that will enhance your female herds reproductive rates.

- All Bulls Pesti Virus Vaccinated
- All Bulls 7 in 1 Vaccinated
- All Bulls Vibrio Vaccinated

## PESTI-VIRUS ASSURANCE

Pesti virus is a problem for southern cattle breeders, that in the whole has been left untreated due to the complex nature of not only the clinical symptoms but also the complex viral spread.

In 2009 Injemira took advantage of new technology by implementing an 'ear notch' test that identifies all persistently infected (PI's) within a herd. Along with the 'ear notch' test Injemira has continued with our vaccination and maiden heifer exposure programs that we have been implementing for the past 7 years.

## Birth Weight Measured at Injemira

### Heifer Bulls Marked with an H

At Injemira we weigh and record all calves at birth. You will notice that in the catalogue a number of sires have been marked with an H this indicates that we consider this sire suitable for a heifer joining program. This recommendation has come from not only a structural observation but a Breedplan EBV and actual birth weight analysis. Many other Whiteface studs in our industry do not offer this to their clients and don't weigh any or only a few calves. They claim that a bull with low performance (600 day weight) will also have a low birth weight. We all know this is not the case! At Injemira we strive to achieve an animal with low to moderate birth weight and increased growth which can be seen by analysis of the sires catalogued.

	Calved: <b>29/08/2020</b>				Tattoo: <b>R447</b>				ID No: <b>TMMR447</b>								
	<p>A great way to kick off our 2022 sale. This phenotype big growth, low birth curve bending sire is backed by a great pedigree. One of our elite Donor females at Injemira is the dam with New Ground adding some real data punch. The highlights include the rare combination of Eye Muscle (top 15%) and marbling (top 4%) making this sire a top end sire suitable for the breeder targeting that long fed feeder market. Suitable for heifers.</p>

	<p>We all want both our bulls and breeding females to have longevity and a huge part in achieving that is structural soundness. This bull is almost perfect in his structure. A lovely smooth front end with length and depth of body and great feet and legs. The weight for age on this bull can be seen with his depth and pure muscle content combined with softness. A top end sire suitable for both grass and grain fed production.</p>

	<p>This sire will most certainly catch your eye. The first of the Porsche sons and what a great example of a modern beef sire. He has a tremendous maturity pattern with carcass second to none and a great structure. I rate this bull as one of the better bulls I have ever bred in both the Angus and Hereford breeds. The pure carcass combined with soft even fat cover means this sire will produce steer progeny with yield potential and finishing ability and will produce daughters that mature early and will maintain body condition. A real top end sire suitable for heifer joining.</p>

4	INJEMIRA NEW GROUND R179 # (HBR)																
	Calved: 27/08/2020				Tattoo: R179				ID No: TMMR179								
<b>Selection Indexes</b>	A sire we have used as a yearling in our 2021 stud heifer joining program, so keep this in mind at inspection. He was selected due to his superior pedigree and his phenotype. What a lovely smooth front end and when he walks the head carriage makes this impressive, combined with perfect feet and legs. You then turn your eyes to his carcass data with EMA (top 15%), Fat (top 4%) and marbling (top 4%) and industry leading data set. A top end sire I look forward to seeing the progeny of at Injemira in the coming months. Suitable for heifers.

<b>9</b>	<b>INJEMIRA COMPLEMENT R433 # (HBR)</b>	Calved: 13/10/2020	Tattoo: R433	ID No: TMMR433												
<b>Selection Indexes</b>	A heifers first calf and the first of the Complement sons to be sold at Injemira. I can only describe this sire as a real 'meat-machine' with thickness and do-ability throughout. The modern industry requires sound bulls with muscle and yield potential and this fellow has this in spades and keep in mind he is one of the youngest bulls catalogued. Strong even data is represented throughout the data set. Perfect bull for that modern lucrative grass fed market. Suitable for heifers.

10	INJEMIRA PARATROOPER R176 # (HBR)	
	Calved: 27/08/2020	Tattoo: R176 ID No: TMMR176
<b>Selection Indexes</b>	The first of the Paratroopers for 2022 and what a nice sound calving ease sire. This early maturing sire has a great pedigree going back to one of our foundation females in Millah Murrah Prue E15. When I inspected this bull for cataloguing it was a toss of the coin. Do I put him up front or leave some really good ones sprinkled throughout the catalogue? I chose to sprinkle them throughout and he is one of those. Get behind him and appreciated the good he has including that testicle development. Suitable for heifers.

11	INJEMIRA NEW GROUND R446 # (HBR)	
	Calved: 29/08/2020	Tattoo: R446 ID No: TMMR446
<b>Selection Indexes</b>	Another of the very solid ET calves combining the Brenda female line with Gatsby and New Ground which brings to the table a calving ease data set with very strong carcass attributes. Muscle (top 15%), Fat (top 4%) and marbling (top 4%) are the highlights. Phenotypically a bull with growth and softness. The daughters will be great with longevity and moderate maturity patterns and the steers will be perfect for the feedlot industry. Suitable for heifers.

	Calved: <b>28/08/2020</b> Tattoo: <b>R442</b> ID No: <b>TMMR442</b>																																																																				
<b>Selection Indexes</b>	Whilst this bull has that calving ease of relatively low birth weight he has the biggest growth potential of any bull catalogued in 2022. Like his other ET brothers from our great Donor cow Brenda L095 the carcass data is second to none with big muscle (top 15%), positive fat (top 4%) and marbling (top 4%) making him perfectly suited to breeders targeting the feedlot sector. This bull will most certainly catch your eye on sale day. Top commercial bull suited for a heifer joining program.

	Calved: <b>28/08/2020</b>		Tattoo: <b>R180</b>		ID No: <b>TMMR180</b>												
<b>Selection Indexes</b>	An ET son of the Grand Old Donor dam Millah Murrah Brenda C67 that is still thriving at the age of 15. This son of the proven Capitalist is a modern beef sire with lovely softness and muscle expression backed by a solid even data spread. I class this sire as a top commercial bull. NB: His temperament is fine despite the Capitalist pedigree. Suited to heifers.

	Calved: <b>28/08/2020</b>		Tattoo: <b>R187</b>		ID No: <b>TMMR187</b>																																																								
Selection Indexes	Hasn't Porsche done so well in his first year at Injemira! They are big powerful bulls with so much carcase and yield potential. Length weighs and weight pays is a saying I love and combined with sound structure this bull is a money maker. The data is solid with a true standout of muscle (top 17%) being the highlight. Perfect for the self replacing feeder steer producer.

Selection Indexes	A heifers first calf by Inertia that has proven to be so solid and produced a great line of commercially suited bulls. Despite being a heifers first calf this fellow has the biggest growth potential of any bull catalogued in 2022. He will be a big bull! So for those breeders looking to up the scale of their breeding herd and put weight into your feeder steers don't over look this sire. This big growth is backed by a very sound structure. A real topline sire suitable for heifers but recommended for cows.

	Calved: 28/08/2020				Tattoo: R443				ID No: TMMR443																																																									
	Selection Indexes Look at the muscle expression and bone in this heavy steer producing sire. Like his full ET brothers in the sale he has that big growth potential but hasn't lost that carcass and finishing ability. A great way to kick off Pen 6 in the sale this is another sire that could easily be at the front of the catalogue. Now we turn our attention to his data set and the carcass data is industry leading with muscle, fat and marbling. A top commercial bull that will breed tremendous feeder steers and is suitable on heifers.

<b>Selection Indexes</b>	Temperament!!! This bull is without doubt the quietest Angus bull I have ever produced. His nature and inquisitive attitude is actually unbelievable. This aside he is also a very good beef sire with strong carcass and a lovely finishing ability. Then you look at the data set, it is just so balanced with nearly all traits fitting into the top 25% of the breed. So if you have facilities that require really quiet cattle this is your sire. Suitable on heifers.

	Calved: <b>30/08/2020</b>				Tattoo: <b>R206</b>				ID No: <b>TMMR206</b>								
<b>Selection Indexes</b>	A very similar style bull to the previous lot with everything right about him. Sired by the great Marlon Brando out of a very attractive sound functional female. If you are looking to put a team of bulls together this bull paired with the previous lot would be ideal.

<b>44</b>	<b>INJEMIRA PARATROOPER R278 # (HBR)</b>																																																			
	Calved: <b>3/09/2020</b> Tattoo: <b>R278</b> ID No: <b>TMMR278</b>																																																			
<b>Selection Indexes</b>	A really good bull to be this far back in the catalogue. A real soft easy doing son of Paratrooper. I always think you can tell a lot from the quality of a bull by his head and this bull has a lovely sires head and this is followed by thickness throughout and a lovely clean sheath. A top herd improving sire suitable for heifers.

	Calved: <b>8/10/2020</b> Tattoo: <b>R147</b> ID No: <b>TMMR417</b>																																																			
<b>Selection Indexes</b>	Only one of four Klooney's catalogued in 2022. In 2021 they sold extremely well and have grown out to be great bulls at their new homes. This bull is ideal for the breeder trying to moderate his herd and add some 'do-ability' to their program. This fellow is ideal for the breeder turning off steers or selling weaners destined for the lucrative grass fed markets.

# CONDITIONS OF SALE

1. Subject to any reserve price, the highest bidder shall be the purchaser.
2. In the event of a dispute bid the auctioneer shall be the sole arbitrator and his decision shall be final.
3. The auctioneer may refuse to accept any bid which in his opinion is not in the best interests of the vendor without giving any reason therefor.  
No person shall be entitled to bid unless, prior to the commencement of the sale, he has made arrangements satisfactorily to the auctioneer for the payment of any stock which he may wish to purchase.
4. Where the vendor reserves the right to bid at the auction in respect of a lot and instructions the auctioneer to make more than one bid on his behalf, the auctioneer shall, prior to submitting the lot for sale by auction, announce in a clear and precise manner the number of bids reserved by the vendor in respect of that lot.
5. A bidder shall be deemed to be a principal unless, prior to bidding he has given to the auctioneer a copy of a written authority to bid for and on behalf of a person.
6. As soon as practicable after the fall of the hammer, the purchaser shall sign the agreement (if any) for sale. In the event that any lot is passed in unsold the highest bidder shall have the right of first refusal of the lot for one hour after the stock comprising such lot has passed out of the sale ring.
7. Subject to anything specifically to the contract contained in either clauses 16 or 17 hereof, the purchase money for stock agreed to be purchased shall become payable and responsibility for such stock shall be borne by the purchaser. All stock shall be paid for in cash before delivery and notwithstanding, the auctioneer may require a purchaser at any time either before, during or after the sale to deposit with him the whole or any part of the purchase money.
8. Title to stock agreed to be purchased shall not pass to the purchaser until the full purchase money for same has been paid and in the event of delivery being made to or possession obtained by the purchaser or his representative prior to payment of all of the purchase money or any cheque given on account of same and the purchaser shall hold the stock in trust as bailee only for the vendor and (notwithstanding anything herein to the contrary) no property therein shall pass to the purchaser, who shall nevertheless be responsible for the safety thereof from the fall of the hammer and until such time as the purchase money is fully paid and shall not deal with the stock in any way whatsoever inconsistent with the title of the vendor.
9. Notwithstanding the giving of delivery or possession of stock sold, the vendor or his agent shall be at liberty to repossess the same at any time while the purchase moneys remain unpaid and for that purpose to enter upon lands or premises of the purchaser and if the purchaser shall neglect or fail to comply with any of these terms and conditions, any stock knocked down to him may be resold by public auction or private contract in such lots and such manner as the agent of the vendor may decide, with or without notice, at the purchaser's risk, who will be held responsible for all loss and expense arising out of any such resale and who agrees to indemnify the vendor and the vendor's agent with respect thereto and shall not participate in the profit (if any) accruing therefrom.
10. The right of the vendor to make not more than five bids is reserved.
11. All conditions and warranties expressed or implied by law (including those implied by statute, but excluding such expressed or implied warranties which may be imposed upon the vendor, pursuant to the provisions of the Trade Practices Act 1973) are hereby excluded and subject as aforesaid all lots are sold with all faults or imperfections, if any, whether the same may be discoverable on inspection or not and no compensation shall be made in respect of any such fault or imperfection or any error of description or number in or of any lots sold or otherwise and no representation made by the auctioneer at the time of the sale shall bind the auctioneer or the vendor.
12. Any statement made by the vendor the auctioneer or the nominated selling agents, whether in writing or oral, to the effect that any female has been pregnancy tested and is pregnant shall mean and require only that a certificate in writing shall be furnished by the vendor to the purchaser, which shall be signed by a qualified veterinary surgeon certifying that he has pregnancy tested the said female on a date specified and that in his opinion the female was pregnant on that (being a date not more than six weeks preceding the date of sale).
13. No refund of commission will be made to the vendor by the selling agent on any sale cancelled after delivery has been made.
14. The auctioneer and selling agents shall be considered only the agents of the vendor and in all disputes the vendor and the purchaser must adjust the matter between themselves and not lot shall be returned to the auctioneer or to the selling agent.
15. Subject as may be otherwise notified herein, the selling agents are selling as del credere agents for the vendor and accordingly the full purchase price of each lot shall be payable by the purchaser to, and be recoverable by, the selling agents.
16. Attention is directed to the provisions of the Auctioneers, Stock & Station & Real Estate Agents & Business Agents, 1941-1957, and also to Sections 178B and 178C of the Crimes Act, 1900, and in particular to the material parts of Sections 45 and 85C of the Auctioneers and Agents Act, 1941-1980, warning as follows:  
**Section 45:**  
It is an offence against the Auctioneers and Agents Act, 1941, for any person to engage in, or to induce or attempt to induce another person to engage in, any collusive practice which may hinder free and open competition at an auction sale, whether by:  
(a) restricting the bidder,  
(b) abstaining from bidding; or  
(c) any other activity which may hinder free and open competition.  
**Section 85C:**  
The actual successful bidder at an auction sale must give to the auctioneer or an employee of the auctioneer on the day of the auction his name, or where he acts as an agent, the name of his principal. It is an offence not to do so.
17. **Sale Subject to Veterinary Testing:**  
Notwithstanding the provisions of clause 7 hereof and subject to any express agreement of the contract between the vendor and the purchaser prior to sale, the sale of any stock shall be subject to that stock passing such veterinary test or tests as may be necessary to enable the stock to be transported to such destination as may be required by the purchaser. The purchaser shall bear the risk and responsibility for such stock as may require veterinary testing immediately upon the satisfactory completion of such testing at which time the purchase money for same shall become immediately payable. In the event that such tests are not satisfactorily concluded, the sale shall be deemed not to have taken place and neither party shall have any claim for damages or compensation of any kind whatsoever against the other. The costs of all tests shall be borne by the purchaser upon such tests being satisfactorily concluded and otherwise by the vendor.
18. **Export conditions:**  
Notwithstanding anything else herein contained, all stock offered and purchased for export overseas shall be sold subject to their passing such veterinary tests, including fertility, as may be required by the country to which such stock are to be imported. The vendor or his agent shall arrange for the appropriate veterinary tests to be carried out as soon as practicable after sale, provided that all costs in relation to such tests shall be borne by the purchaser. All risk and responsibility for such stock shall pass to the purchaser immediately upon the satisfactory conclusion of all such tests, at which time the purchase price shall immediately become payable. In the event of failure of any requisite tests a sale shall be deemed not to have occurred and the stock shall be returned to the vendor and all costs associated with the sale, including veterinary costs, shall in such case be borne by the vendor. Should the purchaser fail to take delivery within three months from the date of the auction sale for whatsoever reason the vendor shall be entitled to cancel the sale and shall bear and pay all costs associated therewith.
19. Notwithstanding any agreement, custom, rule or usage relating to the liability of agents to principals in respect of payments for stock sold at auction, if any stock shall be sold to a purchaser normally resident outside Australia, or to another person acting on behalf of such a purchaser, the agent shall not be liable to pay to the vendor the proceeds in respect of such sale unless and until the agent shall have been paid in full by the purchaser. In the event of such stock being resold pursuant to the conditions of sale, the agent shall not be liable for any resulting deficiency or loss.

**Disclaimer:** Injemira and Thomson's Graphipress do not give any warranty as to errors or omissions, if any, particulars throughout the catalogue which they believe to be accurate when completed. Prospective purchasers should satisfy themselves by enquiry or inspection to the accuracy.
