

Warringa Herefords will sell five **18 month old** Poll Hereford Bulls in the **2nd Annual Gippsland Performance Herefords Online Bull Sale** which will be held **Online on AuctionsPlus on Wednesday 7 September 2022 @ 11am.**

The **Warringa** entries are **Lots 21-25.**

Based on the **Herefords Australia August 2022 BREEDPLAN EBV's** the five Warringa Bulls average in the top **5%** of the breed for **400 Day Weight** and **Eye Muscle Area**, the top **10%** of the breed for **200 & 600 Day Weight** and **Carcass Weight**, top **15%** of the breed for **Milk** and **Intra Muscular Fat (Marbling)**. They also average in the top **10%** of the breed for all four **Breed Index Values**.

Lots **21, 23, 24 & 25** are **Homozygous Polled**, all five bulls have been **DNA** tested, sire and mating verified and are free of all known adverse genetic conditions.

Lots **23 & 25** are both **heifers first calves** and sired by outstanding American sire **NJW 79Z Z311 ENDURE 173D (IMP USA)**. We believe they would be suitable to join to heifers. We used Lot **24**, also sired by **ENDURE**, to cover our heifers following our fixed time AI program, we think a lot of this young sire and believe he is also suitable for heifer joinings.

Lots **21 & 22** are sired by **Yavenvale Powerhouse P499 (PP)** a strong performance backed AI sire who has bred extremely well at Warringa Herefords, both his sons in the sale have very attractive phenotype and exceptional performance data, we are confident they will breed outstanding progeny.

All five Warringa Bulls have met the stringent **Gippsland Performance Herefords Sale Selection Criteria**, including Physical Assessment, Semen/Fertility Test and BREEDPLAN EBV performance requirements. They have all been tested free for Pestivirus, inoculated with 7 in 1, Pestiguard and Vibrovax.

We are very proud of our entries, they have exceptional performance data, phenotype and genetic potential, they are fit and ready to work and we believe they have the genetics, power and performance to make a substantial contribution and add profit to any stud or commercial herd.
