## FREE FREIGHT

Conditions Apply  
(See Sale Details page 4)

## 5% REBATE

To outside agents  
(conditions apply refer page 4)

### YEAR 1:

(until conclusion of first breeding season)

**Commercial Buyers: 100% Unconditional Guarantee for Feet & Fertility.**

= (Purchase price – salvage value) × 100%

Which can be used as a credit for the purchase of a replacement bull as soon as available e.g (Purchase price \$6,000 – salvage value \$2,000) × 100% = \$4,000 Credit (ex GST).

**Commercial Buyers: 66% Unconditional Guarantee for Death & Accidental Injury.**

= (Purchase price – salvage value) × 66%

Which can be used as a credit for the purchase of a replacement bull as soon as available e.g (Purchase price \$6,000 – salvage value \$2,000) × 66% = \$2,640 Credit (ex GST).

**Stud Buyers: 100% Guarantee for Feet & Fertility ONLY.**

Guarantee does NOT cover accidental injury or death by misadventure. Stud Stock Insurance will be available Sale Day and is strongly recommended.

### YEAR 2:

(until conclusion of second year breeding season)

**66% Guarantee for Feet & Fertility ONLY.\***

= (Purchase price – salvage value) × 66%

Which can be used as a credit for the purchase of a replacement bull as soon as available. e.g (Purchase price \$6,000 – salvage value \$2,000) × 66% = \$2,640 Credit (ex GST).

\* Guarantee does not apply to injury or disease.

### YEAR 3:

(until conclusion of third year breeding season)

**33% Guarantee for Feet & Fertility ONLY.\***

= (Purchase price – salvage value) × 33%

Which can be used as a credit for the purchase of a replacement bull as soon as available. e.g (Purchase price \$6,000 – salvage value \$2,000) × 33% = \$1,320 Credit (ex GST).

\* Guarantee does not apply to injury or disease.

.....  
\* In all cases, commercial buyers and stud buyers, the guarantee covers the purchase value of the bull, without interest, costs and damages (if any).

\* The salvage value is retained by purchaser.

\* A veterinary certificate must be supplied by the purchaser upon request.

In addition to the above guarantee, Alpine Angus endeavour to keep a team of back up bulls for commercial clients who have bull breakdowns. If available the back up bull service is free including delivery and collection.

## SALE INFORMATION

### OUR QUALITY ASSURANCE

All Sale bulls must complete the following before being deemed suitable to be offered for sale:

- Semen quality test and physical inspection by Haydn Shipard.
- Independent structural assessment by Ian Moreland from Studcare Genetics.
- All bulls sire verified.
- Performance recorded HBR or APR with Angus Breedplan.
- 7 in 1 vaccination (2 initial and then annually).
- Vibrio vaccination (2 initial and then annually).
- Sale bulls drenched just prior to sale day. Please refer to the NVD.
- Pestivirus eartnotch test negative PI plus Pestiguard vaccination (2 initial and then annually).

### AUCTIONS PLUS

Photos and details of all sale bulls will be available online on the Auctions Plus and Angus Australia websites. Sale Day there will be a live interface on line to allow for off site bidding

### CATERING

We are delighted to welcome back the Rosewhite CWA after an enforced COVID break! Please come and enjoy the legendary morning tea and beef lunch they turn out!

Coffee provided by Sixpence Coffee Roasters, Bright.  
www.sixpencecoffee.com.au

### PRE SALE INSPECTION

Pre-sale Inspection of Sale Bulls available on Sunday, 18 September from 11am–3pm at the Alpine Sales Complex, Rosewhite. Private inspections prior to sale day by appointment are welcomed. Bulls will be yarded for inspection by 10am on sale day.

### GST

All bulls are sold GST exclusive.

### TRANSFER OF REGISTRATION

All bulls will be transferred on the Angus Australia Register. If you have an Angus Society prefix, please provide it when registering.

### OUTSIDE AGENT REBATE FOR BULL SALE

A 5% Rebate will be paid ONLY to those outside agents who ACCOMPANY buyers to the sale OR to those who INTRODUCE BUYERS IN WRITING 24 hours prior to the sale.

A 2% Rebate will be paid to Agents who handle the sale transaction only.

### FREE FREIGHT & DELIVERY

The purchase price paid for bulls includes free delivery by Alpine Angus up to 250km by road from the Alpine Sales Complex. Please note every effort will be made to ensure that delivery will take place within 2 weeks of sale day. Buyer co-operation in co-ordinating delivery is greatly appreciated.

Outside of this we will endeavour to assist in any way we can. If bulls are needed ASAP, please let us know.

### GENETIC CONDITIONS AND GENOMICS

Lot 55, DD test pending. All other lots are free of defects.

All bulls in this catalogue have at a minimum been sire verified and have genomically enhanced EBVs.

### DISCLAIMER

Whilst all care and attention has been paid to accuracy in the compilation of this catalogue, neither the vendors, selling agents or representatives thereof assume any responsibility whatsoever for the correctness, use or interpretation of the information on animals included in this sale catalogue.

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

# WELCOME

**The 2022 Alpine Spring Bull Sale will be held at the Alpine Sales Complex, Rosewhite on Wednesday 21st September at 1pm presenting 65 HBR and APR registered Bulls.**

Alpine conduct an Autumn and Spring Bull Sale and sell around 200 bulls annually. Bulls are bred to last, with foot quality, type and overall soundness high on our agenda. The focus is on the strengths of the Angus breed producing functional cattle with strong maternal attributes and carcase quality.

Alpine Manager Chris Oswin, 'We believe the foundation of the Alpine program starts with the cowherd and a strong commercial focus. Our females are selected for phenotype, easy calving, good temperament and structure. In turn these qualities are passed onto their progeny delivering females and bulls that are easy-handling, have lasting power and whose progeny will land safely. We try to combine this with high-performance and explosive Birth to Growth genetics. This is all intended to help our clients achieve the two most important profit markers – namely maximising the number of live calves born and the kilo's of beef grown per hectare. The 2022 Alpine Spring Bull Sale will offer well fleshed, even and true to type Angus bulls with a focus on capacity, structure and temperament.'

Sires featured in this year's Spring sale include Baldrige 38 Special, Sitz Stellar 726D and G A R Phoenix who combine moderate Birth with explosive Growth. For excellent type and structure there are sons of Karoo Main Event M367 and Alpine Elevator M268. For beef producers looking to achieve high Carcase potential whilst still maintaining strong phenotypes sons of Rennylea N542 will be offered in the sale.

Karoo Main Event M367 produced last Spring's top priced bull, Alpine Rip Wheeler R144, whose semen is marketed by Genetics Australia. Another son, Alpine Main Event Q192 is also marketed by Genetics Australia and is one of their top volume semen sellers.

Alpine Elevator M268 has produced the 2nd top priced bulls at our last two sales, where they have stood out for their quiet nature, big bodies and excellent structure.

Rennylea N542 sired this year's top priced Autumn bull Alpine Real Deal R163, now marketed by ABS Australia, while another N542 son from this sale, Alpine Ronaldo R232 has semen marketed by Sexing Technologies Australia. N542 was also the top selling Sire group at Rennylea's 2022 Autumn sale.

Alpine manager Chris Oswin, 'Every effort is made to ensure Alpine Bulls go to work in peak working condition. Both physically through Semen testing pre-sale as well as being independently structurally

assessed. All Sale Bulls have been parent verified and genomic tested to enhance their EBV's. The fall of the hammer at our sales represents the beginning of a relationship with our clients – a comprehensive after sale guarantee plus our 'can do' attitude means we have our client's back should something go awry.'

Alpine-sired weaners have been rewarding Alpine clients in various saleyards throughout the state with great prices and competition from the high regard these calves are held. Alpine Principal Jim Delany, 'We feel privileged to be able to supply bulls into many quality cattle herds throughout the region, headlined by those in the high country, its valleys and surrounds.'

A Sale Preview where all sale bulls will be yarded for inspection is to be held on Sunday 18th September between 11am and 3pm. The 2022 Alpine Sale Bull Preview has grown in popularity over the last four years and provides a great opportunity to select bulls a couple of days before the sale in a relaxed manner. If that timing doesn't suit, a private preview can be arranged with a phone call to Chris or our selling agents Dan Ivone, *Ivone Agencies Nutrien Myrtleford*, Mick Curtis, *Rodwells Euroa* and Peter Godbolt, *Nutrien Stud Stock*.

All the best,  
*The Alpine Team*

## THE ALPINE ANGUS LEGACY

### 1. ALPINE MUZZA CGKM245

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Retained by Alpine for his excellent structure, type and temperament, and a full ET brother to Alpine Elevator M268. Their dam is one of Coonamble's top cows. Sons have sold to \$24,000. Selling 4 sons.

### 2. KAROO KNOCKOUT NIENK176

FC 6 / RC 6 / FA 5 / RA 5 / RS 5 / RH 5

Fantastic herd sire that stamps his cattle with incredible depth and thickness. Has produced high selling sons at multiple sales, including \$58,000 2nd top price at last years Texas Bull Sale.

### 3. BOWMONT JACKPOT SRKJ310

FC 5 / RC 6 / FA 5 / RA 5 / RS 5 / RH 5

Alpine Angus owned AI sire, semen marketed by Genetics Australia. An A241 son out of one of Ardrossan's top old cows. Produced our 2019 top priced Spring bull. Selling 4 sons.

### 4. TE MANIA LONGSHOT VTML107

FC 6 / RC 5 / FA 5 / RA 5 / RS 4 / RH 5

High marbling, calving ease sire with excellent maternal traits. Dam sire of Autumn's \$90,000 top priced bull Alpine Real Deal R163. A son CGKP296 has 3 sons selling.

### 5. MILWILLAH GATSBY NJWG279

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

ABS semen sire, part owned by Alpine Angus. Gatsby has massive carcass credentials and has left many broody, highly maternal daughters with outstanding carcass credentials.

### 6. STERITA PARK BLACK JACK SPLJ231

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

ABS AI sire owned by Alpine Angus and Sterita Park Angus. Sired Grand Champion carcass Melbourne Royal 2018. Daughters are performing very well. A Black Jack daughter was the dam of our \$75,000 top seller last Spring and another was the granddam of the \$46,000 2nd top price bull.

### 7. TEXAS HOLD'EM DXTH126

FC 6 / RC 5 / FA 6 / RA 5 / RS 5 / RH 5

Alpine owned sire out of one of Australia's top cow families. Full sisters to Hold'em have produced the last two Texas sale toppers including last year's \$215,000 high seller. Coonamble No Limit, a Hold'em son, produced last years \$46,000 2nd top price Spring Bull.

### 8. HAZELDEAN HIGH ROLLER NHZH26

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Out of one of Hazeldean's leading cow families, High Roller has left our herd a legacy of highly maternal, fault free females with excellent docility.

**9. ALPINE LEADER Q238** CGKQ238

FC 6 / RC 5 / FS 6 / RS 5 / RH 5

Top priced bull 2021 Autumn Sale. Strong, square made sire astutely selected by the Ferguson family, Murrumungee.

**10. ALPINE BEAST MODE P171** CGKP171

FC 6 / RC 6 / FS 5 / RS 4 / RH 5

Top priced bull 2020 Spring Sale, out of an excellent Hold'em daughter. Strong maternal pedigree and excellent Birth to Growth spread will see P171 used in our AI program.

**11. ALPINE LEADER P216** CGKP216

FC 6 / RC 6 / FA 5 / RA 5 / RS 5 / RH 4

Strong bodied, moderate Birth Coonamble Leader son. Top price bull from 2020 Autumn Sale, selling to Mark Ham, Freshwater Creek.

**12. ALPINE RONALDO R232** CGKN042

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

One of the high sellers from Autumn 2022 Sale. Super sound, long bodied N542 son with Calving Ease, low Birth and high Carcase credentials. Purchased by Brad Cavanagh, Hardhat Angus with semen marketed by ST Genetics Australia.

**13. ALPINE REAL DEAL R163** CGKR163

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Top priced bull 2022 Autumn Sale, purchased by Harris Thompson, Venturon Livestock. Semen marketed by ABS. Deep bodied, high IMF NORN542 son. Dam by Longshot out of a full sister to Alpine Muzza and Alpine Elevator M268.

**14. ALPINE RIP WHEELER R144** CGKR144

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

This Main Event, out of a Black Jack daughter was out top priced bull in our 2021 Spring Sale, selling to Peter Collins, Merridale Angus and Luke Graham, Crawford Angus. Strong and well balanced with elite combination of Birth to Growth spread and high fat cover. Semen marketed by Genetics Australia.

**15. ALPINE HERO** CGKN042

FC 6 / RC 5 / FA 6 / RA 5 / RS 5 / RH 5

Coonamble H176 son with excellent muscle expression, who was equal top priced bull in our 2019 Autumn Sale, selling to John Canavan, Mansfield.

**16. ALPINE MAIN EVENT Q192** CGKQ278

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

By Main Event out of a Hold'em daughter, this calving ease son was purchased by Genetics Australia in the 2021 Autumn sale as an AI sire. Q192 is one of their highest volume semen sellers.

# SUMMARY OF ANGUS EBVs & \$ INDEX VALUES

The following is a brief description of EBVs and \$Index values and Accuracies.

**Accuracy (%)** – Provides an indication of the reliability of an EBV. As more performance information becomes available on an animal (or it's progeny, or relatives) then the accuracy of it's EBVs for particular traits will increase. See Understanding Accuracies for a more detailed explanation.

**Calving Ease DIR (%)** – Estimates of the genetic differences between animals in the ability of their calves from 2 year old heifers to be delivered without assistance.

**Calving Ease DTRS (%)** – Estimates of the genetic differences between animals in the ability of their 2 year old daughters to calve without assistance.

**Gestation Length (Days)** – Estimates of the genetic differences between animals in the number of days from the date of conception to the calf birth date.

**Birth Wt (kg)** – Estimates of the genetic differences between animals in calf birth weight.

**200-Day Wt (kg)** – Estimates of the genetic differences between animals in liveweight at 200 days of age.

**400-Day Wt (kg)** – Estimates of the genetic differences between animals in liveweight at 400 days of age.

**600-Day Wt (kg)** – Estimates of the genetic differences between animals in liveweight at 600 days of age.

**Mature Cow Weight (kg)** – Estimates of the genetic differences between animals in cow weight at 5 years of age.

**Milk (kg)** – Estimates of the genetic differences between animals in milk production, expressed as variation in 200-day weight of daughter's calves.

**Scrotal Size (cm)** – Estimates of the genetic differences between animals in scrotal circumference at 400 days of age.

**Days to Calving** – Estimates of the genetic differences in female fertility, expressed as the number of days from the start of the joining period until subsequent calving.

**Carcase Weight (kg)** – Estimates of the genetic differences between animals in carcass weight, adjusted to 650 days of age.

**Eye Muscle Area (cm<sup>2</sup>)** – Estimates of the genetic differences between animals in eye muscle area at the 12/13th rib site, in a 300kg carcass.

**Rib Fat (mm)** – Estimates of the genetic differences between animals in fat depth at the 12/13th rib site, in a 300 kg carcass.

**Rump Fat (mm)** – Estimates of the genetic differences between animals in fat depth at the P8 rump site, in a 300kg carcass.

**Retail Beef Yield % (RBY%)** – Estimates of the genetic differences between animals in percentage retail beef yield, in a 300kg carcass.

**Intra-Muscular Fat % (IMF%)** – Estimates of the genetic differences between animals in percentage intra-muscular fat (marbling) at the 12/13th rib site, in a 300 kg carcass.

**Trial Net Feed Intake (NFI)** – Estimates of the genetic differences in feed intake for animals adjusted to the same growth rate and weight base.

Following a review last year a whole suite of new Selection Indexes were introduced with the December 2014 Group Breedplan run. The objective with the new Indexes was to bring them into line with the changes in cattle markets over time.

**Angus Breeding Index** – estimates the genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls.

This selection index is not specific to a particular production system or market end-point, but identifies animals that will improve overall profitability in the majority of commercial grass and grain finishing beef production systems.

The Angus Breeding Index is particularly suited to commercial producers who sell progeny into different markets, or to seedstock producers supplying bulls to commercial clients who produce for a range of different production systems and market end points.

**Domestic Index** – estimates the genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting the domestic supermarket trade. Steers are assumed to be finished using either grass, grass supplemented by grain or grain (eg. 50 – 70 days) with steers slaughtered at 490 kg live weight (270 kg carcass weight with 12 mm P8 fat depth) at 16 months of age. Daughters are retained for breeding and therefore maternal traits are of importance. Emphasis has been placed on eating quality and tenderness to favour animals that are suited to MSA requirements.

**Heavy Grain Index** – estimates the genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture grown steers with a 200 day feedlot finishing period for the grain fed high quality, highly marbled markets.

Steers are assumed to be slaughtered at 760 kg live weight (420 kg carcass weight with 30 mm P8 fat depth) at 24 months of age. Daughters are retained for breeding and therefore maternal traits are of importance. There is a significant premium for steers that exhibit superior marbling.

**Heavy Grass Index** – estimates the genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture finished steers.

Steers are assumed to be slaughtered at 620 kg live weight (340 kg carcass weight with 12 mm P8 fat depth) at 22 months of age. Daughters are retained for breeding and therefore maternal traits are of importance. Emphasis has been placed on eating quality and tenderness to favour animals that are suited to MSA requirements.

+2.9	+4.0	-1.7	+2.7	+\$203	+\$370	

- Main Event is a free moving, long, clean fronted calving-ease bull with impeccable structure.
- A son Alpine Rip Wheeler R144 topped our 2021 Spring sale at \$75,000 and is marketed by Genetics Australia, while a high seller from the year before, Alpine Main Event Q192 also has semen marketed by Genetics Australia.
- Main Event was our \$26,000 top priced selection from the 2018 Karoo bull sale. His combination of low birth, coupled with high performance, perfect feet and flawless structure was too good to pass by.
- He offers a wonderful combination of calving ease, low Birth, 400 Day Wt and good carcass traits and passes on first class foot quality to his progeny.
- Stems from arguably Karoo's most successful female line, Karoo Doris Y137. Full brother in blood to Main Event, Karoo Realist N278 was a high seller in the 2019 sale and is now a semen sire with Breeder Genetics. His sons are topping sales as well.

- Coonamble Navigator is a super thick, wide-topped Discovery son out of a leading Coonamble dam.
- He produces light born, quick growing calves that are deep with great muscle expression.
- Navigator was our pick as a yearling from of an outstanding set of ET brothers. A brother Coonamble Nic Nat was purchased by Murdeduke Angus as one of the 2019 Coonamble high sellers and is an AI sire for Agri Gene, while a 3rd brother from this flush -Coonamble Next Step, has been retained by Coonamble.
- Navigator was used by Coonamble over a small mob of Spring heifers before crossing the Nullabor with two of his sons from this joining averaging \$19,000, despite being amongst the youngest in the sale while we have had sons top to \$18,000.

RIB	P8	RBY	IMF	SA+	SA-L	
-1.2	-0.8	+1.1	+4.1	+\$284	+\$441	

- N542 was recommended to us by Haydn Shipard as a high IMF sire with capacity, fleshing, sound structure and growth and his progeny have definitely delivered.
- A son Alpine Real Deal topped our Autumn sale at \$90,000 and is marketed by ABS, while another high seller, Alpine Ronaldo R232 is marketed by ST Genetics Australia.
- An N542 son topped last years Bowmont Sale and they were the high selling progeny group at Rennylea's Autumn Sale.
- Descending from the high carcasse merit, imported Tehama Eisa Erica cow family, N542 stamps his progeny with sound structure, thick tops, decent butt shape and strong bodies.
- At scanning it was evident how consistently he stamps his progeny with big eye muscle area and IMF. Addition of progeny data has seen his IMF EBV climb from 3.2 to 4.2, now top 3% of the breed.

**7 SONS**  
SITZ STELLAR 726D

IDENTIFIER: **USA18397542**  
STATUS: **HBR**  
BIRTH: **1/23/16**

NOTES: **BIRTH/GROWTH/BODY/CALVING EASE**

CE-DIR	CE-DTR	GL	BW	200	400	600

RIB	P8	RBY	IMF	SA+	SA-L	
+2.4	+1.4	+0.4	+1.2	+\$257	+\$442	

- Stellar and his sons have proved a massive hit in the United State, topping multiple sales highlighted by his grandson Connealy Craftsman topping at \$500,000.
- Stellar has dominated Sitz sales over the last couple of years, producing high selling, heavy bodied sires combining low Birth with great growth, eye appeal and calving ease.
- Sitz describe him as the following – "Stellar is a super thick topped, deep sided bull that transmits added substance, fleshing ability, muscle shape, and is becoming recognized as one of the true foot quality improvers of the breed. The Stellar progeny have consistently performed very well at all levels. The daughters have excellent udders, and his progeny PAP test extremely well. A very well-rounded bull that will produce real world cattle."

**4 SONS**  
BALDRIDGE 38 SPECIAL

IDENTIFIER: **USA18229487**  
STATUS: **HBR**  
BIRTH: **1/13/15**

NOTES: **CALVING EASE/BIRTH/GROWTH/STRUCTURE**

CE-DIR	CE-DTR	GL	BW	200	400	600

RIB	P8	RBY	IMF	SA+	SA-L	
+1.0	-0.4	-0.3	+2.3	+\$268	+\$446	

- 38 Special is a high quality son of Baldridge Isabel Y69, that takes Birth to Growth and explosive performance EBV's to a whole different level.
- Isabel Y69 is widely regarded as one of the best in the USA, producing a staggering number of AI and herd sires and millions of dollars in progeny earnings.
- Our 38 Special calves have been born light and grow quick and they stand on very good feet. They are well muscled with strong toplines.
- We used 38 Special after inspecting his calves at Hoover Angus in Iowa, where he has produced sale topping progeny over the last few years and he has bred extremely well for us.

**4 SONS**  
G A R PHOENIX

IDENTIFIER: **USA18636106**  
STATUS: **HBR**  
BIRTH: **8/15/16**

NOTES: **BIRTH/GROWTH/PERFORMANCE/CARCASE**

## MAINTAINING & MONITORING BULL HEALTH

### VITAL TOOLS TO MAXIMISING LIVE CALVES BORN: TOP BEEF PRODUCERS NEVER SET AND FORGET!

All Alpine sale bulls have been semen tested and physically examined for penile and testicle abnormalities by Haydn Shipard of Agri Gene. From our point of view the QA program for our bulls is designed to ensure we have done everything we can for them to be in optimum condition for their FIRST joining after they leave Alpine.

Once your Alpine Bull arrives at your farm the baton passes to you! This is because Bulls face a range of variables throughout their working lives – but it is important to know they at their greatest risk of problems in their FIRST joining season.

Bull injuries, disease, accidents, general herd health and dumb ass bad luck play a role in the success of a joining program. Closely monitoring your bull(s) and cow herd during as well as pre joining is essential to avoid a 'train wreck' come pregnancy testing – which can involve big losses in \$ terms and a big drag on farm cash flow.

There are four key tools to maximise bull performance and pregnancy rates year after year:

The first is to maintain the annual vaccination program for pestivirus, vibriosis and leptospirosis for the rest of a bulls working life.

The second is to get ALL of your bulls checked prior to joining by the appropriate industry experts for your bulls' semen quality as well as allowing a physical evaluation of their working parts to make sure all is in order. This will help to identify any bulls that have issues due to a past or current infection or a physical injury not obvious to the naked eye.

Unfortunately if bulls are not checked issues relating to the above are sometimes only discovered as a result of a poor calving or pregnancy test results. This is the 'train wreck' we need to avoid! In our experience with our many Alpine clients there is a DIRECT correlation between those clients achieving consistently better preg test results and the pro active management of the beef producer themselves – those who do all of the above

on a consistent year by year basis are well ahead of those who don't – both in terms of job satisfaction and \$ Profits.

Obviously employing the services of an industry expert to perform these bull tests is another cost. However we strongly recommend that you view this not as a cost but as an investment! We are confident you will get a very significant return in \$ terms over time by putting in place the process outlined above and by employing the right outside expertise.

Industry experts we recommend who could help include the services of specialists like Haydn Shipard or Ian Moreland, of Studcare Genetics. Both Haydn and Ian offer on farm fertility evaluation of bulls and we highly recommend their services – between them they have a combined 70 plus years experience in this field!

Glen Page from Zoetis is also happy to discuss any issues in regards to Vaccination programs and of course your local vet is another handy resource for any of the above.

The third strategy in each joining period is to try and observe each bull you have successfully serving a cow.

The fourth and final strategy is to focus on the cow herd. The majority of cows should be pregnant in the first cycle of joining ( approx. 60–70%), so large numbers of cycling females after the first 3–4 weeks of bull introduction is most likely a KEY indicator of potential problems and should get alarm bells ringing.

There are a number of different strategies to help minimise the risk of bull breakdown during joining. These include multiple sire groups, rotation of bulls through different mobs, as well as the introduction of fresh bulls. Each of these have their own pros and cons and it gets down to personal preference and confidence levels. If you think you have a problem please don't hesitate to use Alpine Manager Chris Oswin as your first port of call – Chris is only too happy to help with trying to identify the problem and help you to identify the solution options available to you.

# RODWELLS

## LOCAL SERVICE NATIONAL STRENGTH

## It's a trust thing

***Representative, negotiator, ally, and mate – this is a relationship business.***

At Rodwells we are known for our team of local, experienced, independent livestock specialists and property agents across Victoria, New South Wales and South Australia.

Backed by the strength of a national network, our Rodwells agents deliver the most effective solution tailored for your livestock. Our knowledge and experience in local markets and seasonality means that you can trust us to deliver the highest standard of service.

And as part of the Ruralco group of businesses, we are able to draw on the resources of Ruralco Property, providing real estate agency services in both rural and residential markets, as well as a comprehensive property management service.

Our agents have access to up-to-the-minute market intelligence, including market trends and performance statistics, and are committed to securing successful buying and selling results for their clients.

Whatever your livestock or property needs, we are confident our service offering provides the best possible outcomes at all levels of the industry supported by our ethos of Local Service, National Strength.

**Talk to your local Rodwells expert...**

**Give us a call for more information about our services and products**

# There are many ways to participate in the Alpine Spring Bull Sale.

## BACKED BY ALPINE'S COMPREHENSIVE QUALITY ASSURANCE PROGRAM

- Independent structural assessment of sale bulls pre-sale by Ian Moreland from Studcare Genetics.
- Independent semen quality test pre-sale has been conducted by Haydn Shipard.
- Alpine 3-year Bull Guarantee (Conditions apply).

- **PREVIEW SUNDAY 18 SEPTEMBER**  
Preview the sale lineup on Sunday 18 September 11am–3pm.
- **PREVIEW BY APPOINTMENT**  
Preview the sale lineup by appointment with Chris Oswin mobile 0427 562 254.
- **ATTEND THE SALE**  
Attend the sale on 21 September in person – sale bulls will be on display from 10am. Refreshments and beef lunch provided.
- **BID ONLINE YOURSELF**  
Bid online yourself via *AuctionsPlus* – please register as soon as you can to allow enough time to become familiar with how things work! [www.auctionsplus.com.au](http://www.auctionsplus.com.au)
- **BID ONLINE WITH ASSISTANCE**  
Bid online with assistance from your local agent at their office.
- **BID VIA PHONE HOOKUP**  
To arrange to bid via phone hookup, please contact either Auctioneer Peter Godbolt 0457 591 929 (*Nutrien Stud Stock*) or Selling agents Dan Ivone 0427 480 548 and Wade Ivone 0487 233 208 (*Nutrien Ivone Agencies*) or Mick Curtis 0428 953 222 and Scott Meehan 0428 952 536 (*Rodwells*)

# BEEF CLASS STRUCTURAL ASSESSMENT

## HOW TO USE THE BEEF CLASS STRUCTURAL ASSESSMENT SYSTEM

The 2021 Alpine Spring Sale bulls were independently assessed by Ian Moreland.

The Beef Class Assessment System uses a 1–9 scoring system for feet and leg structure;

- A score of 5 is ideal. (Note: Except for Temperament Score where score of 1 is preferable – refer notes below)
- A score of 4 or 6 shows slight variation from ideal, but this includes most animals. An animal scoring 4 or 6 would be acceptable in any breeding program.
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs.
- A score of 2 or lower or 8 & higher are low scoring animals and are culled.

Abbreviations:

FC: Front Claw  
 RC: Rear Claw  
 FA: Front Foot/Pastern Angle  
 RA: Rear Foot/Pastern Angle  
 RS: Rear Leg Side View  
 RH: Rear Leg Hind View

## AFTER SALES SERVICE AND MANAGEMENT OF BULLS

**BUYING A BULL IS AN INVESTMENT. THIS INVESTMENT SHOULD CONTRIBUTE TO THE GENETICS AND SALE INCOME OF YOUR HERD FOR MANY YEARS. IF YOU ARE TO GET THE MOST FROM YOUR NEW BULL, IT PAYS TO LOOK AFTER HIM WELL, ESPECIALLY IN THE FIRST SEASON OF USE.**

Please remember, when working bulls through the yards, handle them with care. Preferably work them with other cattle and do not use force.

### OUR GUARANTEE

All Alpine bulls for commercial clients are guaranteed for up to three years from the date of sale. See p. 2 for details and conditions. Every effort has been made to ensure our bulls leave Alpine in top working order.

### AFTER SALES SERVICE

Our 3 year guarantee is designed to deliver the best quality assurance. The sale of a bull we regard as the beginning of a relationship with our clients rather than the end of a 'deal'. We also believe we have a vested interest in helping our clients breeding programs in any way we can.

If you have any problems with your bulls or any other aspect of your breeding program we invite you to make contact with us regarding your concerns as soon as possible. We endeavor to keep a supply of back up bulls at all times in order to meet our guarantee obligations and as a service to clients whose bulls are accidentally injured.

### ARRIVAL OF YOUR NEW BULL

Bulls can become upset and excited in the sale and delivery process. They are subjected to strange yards, different noises, loss of their mates, different people, different handling methods, trucking, unloading, new paddocks and different water and feed. This can upset animals, which are normally very quiet.

When the bull arrives home, unload him at the yards into a group of house cows, steers or herd cows. Never jump the bull from the back of a truck into a paddock. Bulls from different origins should be put into separate yards with other cattle, steers or cows, for company.

Provide hay and water, and then leave the bull alone until the next day.

All bulls should be drenched for worms every six months with a dectin drench. In addition they may need a drench for fluke if necessary and to be treated for lice. The following annual vaccinations are recommended:

- 7-in-1 vaccine annually.
- vibriosis vaccine annually.
- Pestiguard vaccination annually.

Give particular attention to preventing new bulls bringing vibriosis into a herd. Vibriosis is a sexually transmitted disease that causes infertility and abortions and is most commonly introduced to a clean herd by an infected bull. Vaccinated bulls are free from vibriosis so vaccinating bulls against the disease should be a routine practice. All Alpine Angus bulls are vaccinated.

### MATING BULLS

For an efficient production system we recommend a 6–8 week joining season.

Newly purchased young bulls should not be multiple joined with older herd bulls. They will not be allowed to work much and in keeping them away from the cows, the older, dominant bull will knock them around.

Use new bulls in either single sire groups or with other young bulls their own age. If a number of young bulls are to be used together, run them together for a few weeks before joining starts. They sort out their pecking order quickly and have few problems later.

Ensure all bulls used are in good condition prior to working—condition score 3 is ideal. Remember bulls that are too light or heavy in condition may have problems with libido and semen production.

Yearling bulls are still growing strongly, so tend to be leaner, carrying less body fat reserves. The condition of the yearling bulls is critical. If they drop below condition score 3, sperm production may be impaired.

Service Ability Testing is recommended on all bulls prior to joining.

All working bulls should be tested or checked before joining for physical soundness, testicular tone and serving ability.

All bulls to be used must be free moving, active and in good store condition. Bulls may need supplementary feeding before the joining season to bring them up to condition score 3. The Australian Association of Cattle Veterinarians (AACV) defines a normal, fertile bull as 'expected to get 90% of 50 normal, cycling, disease

free females pregnant within 9 weeks, and 60% of these should become pregnant in the first three weeks of joining'. This expectation would apply to 2 year old bulls, but not to younger bulls.

### DURING MATING

Whilst generally all goes to plan we believe a proactive approach is best to ensure you get the best result.

We strongly recommend that you keep a close eye on the bulls if possible when joining. Even though we have performed a service ability test and had your bulls independently structurally assessed bulls are animals and things can still go wrong. Check bulls at least twice each week during joining. Get up close to them and see each bull walk; check for swellings around the sheath and for lameness. Watch them work if possible. A significant number of cows or heifers bulling after 6 weeks of joining may indicate there is a problem. Young bulls are particularly vulnerable in their first season. Common problems that can occur are;

- they may not have built up immunity to IBR (the cattle form of herpes—making it painful to insert the penis).
- or may be more prone to a fever event through the stress of working, new surroundings and establishing their ranking with other bulls. This can render them temporarily infertile for a six week period.
- Problems such as warts on the penis will mean that the bull will need to be attended to.
- and pay particular attention to any sign of abnormal serving problems like 'cork-screw penis'.

Replace any suspect bull immediately. If you think there is or might be a problem please do not hesitate to contact us immediately as we can help you investigate the problem and if available provide a replacement bull so your joining is uninterrupted by any unforeseen event.

If you have to replace a bull, it is always wise to get the problem bull checked by your vet. Sometimes prompt treatment for small problems can avoid culling.

In addition to the Alpine Guarantee, Alpine Angus endeavour to keep a team of back up bulls for commercial clients who have bull breakdowns. If available the back up bull service is free including delivery and collection.

Our thanks to the Angus Society for their contribution to this article.
