## GROUP BREEDPLAN SUMMARY OF AVERAGE EBV'S FOR 2021 DROP CALVES

Group Breedplan tables have been provided from each Breed Society's 2022 Group Breedplan Summaries (as published on their websites) as an aid to bull buyers.

The average EBV's for the 2021 calf drop is an indication of the current genetic level of the breed based on the latest calf crop with a potentially complete performance profile. You CANNOT make between breed assumptions from these figures. You can only compare Group Breedplan EBV's within a breed. There has been no attempt to standardise the EBV's across breeds as yet.

Please also note the degree of accuracy ("ACC") percentage attributed to each animals' individual figures when weighting each trait's influence on that animal.

For more information and an explanation of EBV's please visit the relevant breed websites.

---

# Insurance tailored to my farm. That's why I'm with WFI.

At WFI, we take the time to thoroughly understand your business and how it operates. Because when we get to know a business, we can protect everything that matters.

We're available to meet with you face-to-face to discuss your insurance requirements. That's just one of the reasons why we're good people to know for insurance.

Need an insurance quote?  
Call Andrew Rogers on  
0417 960 267

WFI Rural Plan consists of a range of different policies, covering a wide variety of risks. This approach gives you greater flexibility, and if circumstances change it is easy for you to add another policy.

WFI Rural Plan policies you can choose from:

-  Farm Property Damage
-  Farm Loss of Income
-  Farm General Property
-  Farm Transit
-  Farm Legal Liability
-  Farm Machinery Breakdown
-  Farm Electronic Equipment
-  Farm Burglary and Theft
-  Motor Vehicle
-  Personal Legal Liability
-  Domestic Workers (WA only)
-  Classic Home
-  Standard Home
-  Personal Valuables
-  Pleasure Boat
-  Personal Accident and Illness

backed by 

Insurance Australia Limited ABN 11 000 016 722 AFSL 2276 81 trading as WFI is the issuer of our policies. This flyer doesn't take into account your objectives, financial situation and needs. # MULTIMIN<sup>®</sup>

---

## WHEN IT MATTERS

### IMPROVED FIRST CYCLE CONCEPTION RATE

Multimin Evolution has been shown to improve the first cycle conception rate by **UP TO 19.4%**.<sup>1-3</sup> Conception in the first cycle can lead to an additional 20 to 40 days for calves to grow.

### IMPROVED PREGNANCY RATES

Pregnancy rates in breeding females treated with Multimin Evolution are up to **12% HIGHER** than untreated females, depending on the length of the breeding season and breeding method.<sup>1,2,4-6</sup>

### IMPROVED SPERM QUALITY

Bulls treated with Multimin Evolution 90 days before joining had **22% HIGHER** sperm concentration and significantly more motile sperm than control animals.<sup>7-10</sup>
