Market Report

Nutrien Livestock yarded 984 Dairy and First Cross cattle for the first of the July Store sale fixtures. The yarding was comprised predominantly of Friesian steers with a small good, but quality offering of Angus - Friesian steers. There were no Friesian steers presented to the marketplace above 500kg. Those above 400 kg gained 10-20c/kg with increased competition from grass and lot feeders.

Lightweight dairy steers below 300kg remained firm on last market with Montbéliarde Cross steers in this weight range selling to 230c/kg, while the Friesian portion realised 206c/kg. Heavyweight Angus Friesian steers above 400kg gained 20-25c/kg per kilo on last month realising 304c/kg. First cross steers under 300kg gained 20-30c/kg selling to 270c/kg.
