Market Report - Auctioneer: Chris Waddingham

Nutrien Livestock yarded 938 weaners in the final weaner sale for the WALSA 2025/26 selling season. This made up 100% of the yarding today. The quality was in the main very good with only a few pens of plainer types offered. The market was a bit two paced today, with all Angus steers and heifers receiving strong competition and increasing in value across all weight classes. In comparison, the Euro cattle lost ground on last week's values. An outstanding line of 237 Angus steers consigned by Stoney Agri was the feature of a very good Angus steer offering. These steers sold from 510-560c/kg to a keen gallery of return buyers. In the Angus heifers a high class offering of future breeder type females from Bullrush Farm sold to a high of 580c/kg to equate to \$2157.60/head.

Thanks to all involved in another successful weaner selling season at Boyanup Saleyards - the only selling facility in WA that for 14 weekly fixtures through summer, the entire yarding has been weaned a minimum of 10 days.

Representative Sales
