## Market Report

Auctioneer: Chris Waddingham

Nutrien Livestock yarded and sold 1357 cattle at this month's Store Sale. The quality of the offering was very good. Very few of the cattle yarded were plain in type, with the only types to be considered so in very small numbers. These reflect the low price of the weight ranges by type. All classes were largely equal to last sale with very little variation in price across the weight ranges.

Heavy yearling steers sold from 46-0c/kg, feedlot entry weights to 490c and steers suitable for restockers and grass fatteners to 526c/kg. Heavy feeder weight heifers realised 456c/kg, medium weights suitable as breeders to 532c/kg and heifers to return as backgrounders to a high of 510c/kg.

Light weight first cross steers were the feature of the dairy cross steers, and these sold to 510c/kg. Holstein steers sold consistently from 310-350c/kg across most weight classes with the variation being a result of condition and presentation more than anything else. Over 500kg Holstein steers received limited competition with only a small amount of physically present buyers in the market for that weight, however a keen operator on AuctionsPlus was strongly competitive in this weight range.
